

## WHAT TO BRING

As a pet parent and pro photographer, I carry most things with me in my car and always have supplies in my studio, but it's always helpful if you can try to remember to bring:

Collar and lead - nice clean ones that can be in the photographs and harness or head collar - for walking between locations, if needed.

Lots of treats! No one wants to work for free - dime sized pieces for larger dogs, pea sized pieces for smaller dogs.

Water for you and your dog - you can share if you like!

Poop bags - because poop happens!

Change of outfit/shoes - for you and your pup if you like! If you have shoes that you want to wear for some of the photographs but they're not great to walk in, bring them with you to change into.

Any grooming equipment you or your pet might need!

Try to limit yourself to ONE bag if we are meeting on location!
